ABOUTUS

Global Player

We are an international company with a sales presence in more than 120 countries world-wide. We are a major player in the stamp industry and have achieved an outstanding position in the market.

Innovation & Design

With our innovative ideas, modern design and product enhancements, we constantly strive to improve the quality and durability of our products. The increased range of applications enhances the image of the range.

Marking Solutions

We offer all kinds of marking solutions. Our core business is the production of high-quality stamps. In addition we also offer all the materials needed for the production of text plates as well as the systems and machinery. Sophisticated e-solutions for the creation of text plates, or for online sales, complete the range.

Quality

With our Austrian and Czech based production facilities we can ensure the highest standard of European produced products. The ISO 9001 certification means the best quality systems and procedures are in place.

Environmental Management

Environmental responsibility is a central philosophy in our company. Our ecological orientation reflects in an ISO 14001/2004 certificate for Environmental Management. We endeavour to make the biggest possible contribution to protecting and preserving our environment. Several years ago we included this subject in our "COLOP-Mission" and developed a comprehensive and sustainable environmental concept as well as ecologically orientated products.

High Tech Production

Fully automated production and assembling of the main product lines assures excellent quality as well as providing the capacity for further expansion and securing the site in the long term. The production processes are set up with the environment in mind. We base our responsibility for the environment on the following philosophy in order to avoid waste:

Avoidance **over** reduction **over** utilization **over** rejection

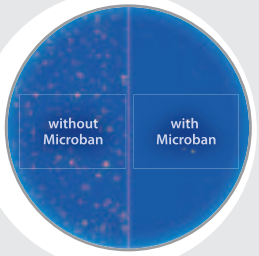
MICROBAN® STAMPS

Printer Line Classic Line Classic

Main parts infused with Microban® antibacterial product protection

Stamps with antibacterial protection

In daily life stamps are handled by many different people – this means multiple hand impressions and the transfer of bacteria. Microban® antibacterial protection inhibits the growth of harmful bacteria!



Product surface without and with Microban antibacterial protection after 24 hours

COLOP are utilising Microban 3G Silver™. It is built-in to the product during the manufacturing process and will not wash off or wear away

Classic Line see pages 26-29

Microban antibacterial protection has undergone extensive independent laboratory testing

GREEN LINE

Printer Line Class ne S200 Line Printer L

Evaluated according to ISO 14044, verified by Denkstatt an independent institute and based on the system boundary "cradle to gate"

COLOP® – we take **responsibility**

COLOP Green Line - the self-inking stamp range predominantly made from sustainable and recycled material. A minimum of between 75 % and 80 % recycled plastic is used.
COLOP Green Line - the range of CO_2 neutral self-inking stamps - from text to date stamps. The already significantly reduced but unavoidable CO_2 emissions are compensated by means of investment into climate protection projects (GOLD STANDARD Projects), based on the system boundary "cradle to gate".

The Green Line range was audited during the ISO 14001 accreditation process

The Classic Green Line handles are FSC® certified (Forest Stewardship Council)

The Green Line packaging is made from 100 % unbleached recycled cardboard
